The Islamic year has twelve months that are based on a lunar cycle. Allah ﷻ says in the Holy Quraan:

"The number of months in the sight of Allah is twelve (in a year) - so ordained by Him the day He created the heavens and the earth...." (9:36).

"It is He Who made the sun to be a shining glory, and the moon to be a light (of beauty), and measured out stages for it, that you might know the number of years and the count of time. Allah did not create this except in truth and righteousness. And He explains His signs in detail, for those who understand" (10:5)
